

Clinton Family Vision

CONTACT LENS EVALUATION AGREEMENT

WHAT IS A CONTACT LENS EVALUATION?

A contact lens evaluation includes the following services by both the doctor and staff at (Promontory) Clinton Family Vision.

- Assessment of visual needs and expectations.
- Evaluation and determination of prescription and eye health in regard to contact lens wear.
- Diagnostic trial lens fitting.
- Follow-up examinations to monitor eye health, prescription accuracy and appropriate fit for a 90 day period, or depending on the complexity of the fit.

EVALUATION FEE

The evaluation fee includes the initial visit and all subsequent visits related to contact lens wear for a 90 day period, or depending on the complexity of the fit. The evaluation fee starts at \$40.00. The follow up period begins when the first contact lens is dispensed to the patient.

INSERTION AND REMOVAL TRAINING

In addition to the above evaluation fee, first time contact lens wearers are scheduled for a training session with a contact lens technician when the trial lenses arrive. During this session, patients are taught how to insert, remove, clean, and care for contact lenses. The session may take up to an hour and a half depending on how quickly the patient becomes comfortable with insertion and removal of the lenses.

POLICIES

- Charges for Contact lens evaluation fees are due in full at the time of the contact lens evaluation.
- All contact lenses must be paid in full prior to being ordered.
- Progress checks and other contact lens related services performed after the above mentioned follow up period are subject to normal office visit charges.
- Most insurance plans do not cover the full amount of contact lens fees. You will be responsible for any uncovered costs incurred by the eye exam and contact lens evaluation or contact lenses.
- Professional fees for the complete eye exam and contact evaluation are not refundable.
- You are responsible for scheduling and attending follow up visits in order to finalize your prescription. Your prescription will not be released and contact lenses will not be ordered for you until your prescription has been finalized by the doctor.
- Contact lens prescriptions expire after 1 year.
- We can provide your contact lens prescription if:
 - You have had a contact lens exam within the last 12 months at Clinton Family Vision
 - You have returned for all requested follow up exams, allowing the doctor to finalize your prescription.
 - An ocular medical condition does not exist requiring follow up care
 - All financial obligations have been met
